

SAF

SUSTAINABLE AVIATION FUEL

- ▶ SAF available at Atlas Air Service on every flight to any destination through book-and-claim
- ▶ Made from renewable waste materials, such as used cooking oil
- ▶ SAF is approved as JET-A1
- ▶ certificate your individual reduction of the CO² emissions
- ▶ Available through book-and-claim:
 - › SAF can be booked as an upgrade for individual flights
 - › The equivalent amount of SAF is not necessarily used at the specific flight but at any flight operated by Atlas (due to availability, price, operational reasons)
 - › The reduction of emissions can be claimed using the certificate
- ▶ SAF book-and-claim offers real, immediate and significant reductions of CO². Carbon offset programs are less transparent and less reliable.
- ▶ Surcharge for SAF upgrade:
 - › Please call for quote

BOOK YOUR SAF UPGRADE RIGHT NOW!
