ATLAS AIR SERVICE AG

**ATLAS AIR SERVICE**

**WE'RE  
HIRING!**

Since 1970 we are known for competence and quality in business aviation services. We are Europe's largest maintenance specialist for Embraer Executive Jets, Cessna Citations and Beechcraft aircraft. We are represented by 250 employees at four locations in Germany (Bremen, Ganderkesee, Stuttgart and Augsburg). We are also specialized in pre-owned aircraft sales on behalf of our clients.

For our maintenance team in Bremen we are looking for

**Licensed Engineers (m/f/d) CAT B1 or CAT B2 on Beechcraft King Air 200 or 300 Series**

If you already have experience as Certifying Staff on Beechcraft King Air 200 or 300 Series, we want to get to know you.

As a member of our maintenance team, your primary task is to be a competent contact person for our customers and to carry out scheduled and unscheduled maintenance works.

For this:

- You have completed training as an aircraft mechanic or avionics technician and hold a B1, or B2 license on Beechcraft King Air 200 or 300 Series
- You have experience in base maintenance
- Your English is good in speaking and writing
- You enjoy working as a team leader directly on the aircraft
- You find the combination of maintenance and inspection appealing
- AOG jobs and temporary assignments abroad are no hurdles for you
- You are able to deal with demanding customers in an open and communicative manner

We offer you permanent employment with performance-related payment as well as attractive bonuses with special benefits, such as company fitness and company pension scheme, as well as the opportunity for further training and qualification. Bremen and the surrounding area are a pleasant place to live and our location offers both a direct parking space at the place of work and connections to public transport.

Our Ms. Wetzstein is looking forward to receiving your complete application form and your salary expectations at [career@aas.ag](mailto:career@aas.ag)
