

**Introduction**

This Scope of Work–Aircraft defines in detail the different aircraft models / variants for which we are approved to perform line- and base maintenance based on approved data in accordance to Part-145.A.45.

The issue of an airworthiness review certificate acc. Part-145.A.75(f) is not authorized.

TCDS data are taken from the EASA Product Lists Large Aeroplanes, Small Aeroplanes. Depending on the state of registry, national TCDS may have to be observed.

Each revision of the Scope of Work-Aircraft will result in a new issue number.

**List of Effective Pages**

Content	Issue	Date	Pages
